1st MBZUAI Workshop on **Statistics for the Future of AI**

THE
AI
QUORUM.

Statistics for the Future of AI

MBZUAI, Abu Dhabi, UAE **January 8-9, 2024**

Join us for the workshop

Present your poster

Statistics is crucial for Artificial Intelligence as it contributes to both the theoretical foundations and applications of AI through theoretical advancements that drive the development of models and inferential methods, and statistical techniques that address data issues and support decision.

Objectives:

- Identify Relevant High-Impact Research Opportunities in Statistical Sciences related to AI research, with a focus on challenges in health applications
- Propose potential MBZUAI-led research collaborations and educational activities
- Envision a statistical curriculum for AI research
- Engage a diverse pool of potential targets of opportunities.

CONFERENCE
THEMES

Imaging

Smart Health

**Electronic
Health Record**

**Computational
Biology**
